decade, local drug makers have curtailed production of these raw materials, and in some cases stopped producing them altogether because of high costs.

According to a KPMG-CII report released on Wednesday, imports of APIs grew at CAGR of 11 per cent from \$ 800 million in 2004 to \$ 2.8 billion in 2016. China alone contributed to 60 per cent of imports by volume and 70 per cent by value in 2016.

"The drug regulator in China has increased the oversight on local manufacturers and their cost of production has increased to meet good manufacturing practice compliance. The cost of APIs from China has increased by 30-50 per cent," said D G Shah, secretary general of Indian Pharmaceutical Alliance.

**China have gone up by 30-50 per cent, resulting in an increase in the expenses**

shortages of essential drugs in India," said Ravind Mithe, partner, strategy & operations, KPMG. The high dependence has also been dubbed as a health security risk and

The KPMG-CII paper suggests that the government help local manufacturers by creating API clusters, providing low cost utilities and financial incentives among others.

The high dependence on Chinese imports has also been dubbed as a health security risk and two months ago Drug Controller General of India had decided to draw up an action plan to mitigate risks in case of disruptions.

dependency (on single source) means that any disruption in the supply of APIs can potentially result in significant

"The Cabinet approves a new skill development scheme covering the entire value chain of the textile sector excluding Spinning & Weaving in the organised sector, titled 'Scheme for Capacity Building', the statement said.

The scheme will have National Skill Qualification Framework compliant training courses with funding norms as per the Common Norms notified by the Ministry of Skill Development and Entrepreneurship.

The objectives of the scheme are to provide demand driven, placement-oriented skilling programme to incentivise the efforts of the industry in creating jobs in the organised textile and related sectors, it said.

The scheme is aimed at promoting skilling and skill upgradation in the traditional sectors through the Ministry of

It will also be rolled out through reputed training institutions relevant to textile sector having placement tie-ups with textile industry or units, and institutions of the Ministry of Textiles or state governments having placement tie-ups with textile industry or units.

Under the scheme, job role wise skilling targets will be based on skill gap identified for various levels including entry-level courses, up-skilling/re-skilling (supervisor, managerial training, advanced courses for adapting technology etc), recognition of prior learning (RPL).

Moreover, segment/job role wise requirement of skill needs will be assessed from time to time in consultation with the industry.

Web-based monitoring will be adopted for steering every aspect of implementation of the programme.

The skilling requirement in

neurial development through provision of MUDRA loans.

The scheme will be implemented for the benefit of all sections of the society across the country including rural, remote, LWE affected, North East, J&K by imparting skills in the identified job roles.

Preference will be given to various social groups, SC, ST, differently abled, minorities and other vulnerable groups.

Under previous scheme of skill development implemented by the Ministry of Textiles in the XII Plan period, more than 10 lakh people have been trained of which more than 70 per cent were women.

"Considering that the apparel industry, a major segment to be covered under the scheme, employs majorly women (about 70 per cent), the trend is likely to be continued in the new scheme," said the statement.
